

NERELLA RAMESH

Senior UI Developer / Technical Lead

Email: rameshprince281024@gmail.com Cell: +91-7075281024 LinkedIn: [linkedin.com/in/ramesh-nerella-a4a3b5247](https://www.linkedin.com/in/ramesh-nerella-a4a3b5247)

PROFILE SUMMARY

- Senior UI Developer / Technical Lead with **10+ years** of experience building responsive, high-performance web & mobile applications using **HTML5, CSS3, SCSS, Bootstrap 4 & 5, PrimeNG** and **basic Angular**.
- Currently serving as **Technical Lead** at **Motherson Technologies**, leading a team of **10 engineers** on a large-scale enterprise application built on **micro-frontend architecture**.
- With the help of **Claude AI**, capable of independently building **complete end-to-end full-stack applications** — selecting and applying whatever frontend and backend technologies a project needs, from architecture through production deployment, without relying on Figma/mockup designs.
- Skilled in building reusable, modular UI components and maintaining clean, scalable SPA structures.
- Proven leadership as a **Team Lead** for 4+ years, managing teams of 8–10 across multiple concurrent projects.
- Proficient with Bug Tracking/Story Board tools like **JIRA, AWS and Azure**, and experienced with **Git and deployments**.

KEY SKILLS

- **Primary Skills:** HTML5, CSS3, SCSS, Bootstrap 4 & 5, PrimeNG, Basic Angular
- **AI-Assisted Full-Stack Development:** Claude AI — able to independently design, build and deploy complete full-stack applications end-to-end using whichever frontend and backend technologies a project requires (e.g., React, Node.js, SQLite), through prompt engineering
- **Tools & Practices:** Git, JIRA, AWS, Azure, Micro-Frontend Architecture, Agile/Scrum, Team Leadership

INDEPENDENT PROJECTS — BUILT END-TO-END USING CLAUDE AI

Conceptualized, designed and developed the following full-stack applications independently from scratch — using Claude AI through prompt engineering for architecture, coding, and deployment. No Figma or mockup designs were used; all UI/UX was self-designed.

Bunny Gift Store — E-Commerce Web Application | Live: <https://www.bunnygiftsstore.com>

Tech Stack: HTML, SCSS, Bootstrap, React, Node.js, SQLite (with production deployment)

- Built complete **Admin** and **Customer** portals with role-based access.
- **Admin portal:** product catalog management (add/update products), category management, pricing & model updates, order tracking, and refund processing.
- **Customer portal:** new user registration, product browsing, cart & billing, order placement and order tracking.
- Handled the full lifecycle — design, development, testing and production deployment.

Juice Center — Internal Billing & Menu Management Application

Tech Stack: HTML, SCSS, Bootstrap, Node.js, SQLite

- Built **Admin** and **Staff/User** roles for daily store operations.
- **Admin role:** sales report generation and PDF export for vendor sharing, menu oversight.
- **Staff/User role:** add/modify menu items, mark items unavailable, receive customer orders, cart management and bill printing.

PROFESSIONAL EXPERIENCE

1. Motherson Technologies (Client) — via Orange Mantra Technologies Pvt Ltd (Payroll) [Mar-2025 To Present]

Role: Technical Lead | Team Size: 10

Leading a technical team of 10 in developing a large-scale enterprise web application built on micro-frontend architecture. Responsible for code quality, cross-team module integration, and ensuring scalable, maintainable frontend systems.

Technologies: HTML, CSS, SCSS, Bootstrap, Micro-Frontend Architecture, Basic Angular, Git

2. Evoke Technologies Pvt Ltd. [22-Sep-2022 To 09-Dec-2024]

Roles and Responsibilities

Served as a Senior Technical Associate & Tech Lead, driving multiple projects for US and UK clients. Skilled in building responsive, high-performance web applications with a strong focus on UI/UX and modern frontend technologies.

Technologies: HTML, CSS, Bootstrap, SCSS, JQuery (only for website animations), Basic Angular

3. People Tech Group Pvt Ltd. [16-Feb-2021 To 21-Sep-2022]

Roles and Responsibilities

Worked as UI Developer on multiple projects like Star Genie (Telugu celebrity related), Washington Certification Services and HCA (Health Care Authority).

Technologies: HTML, CSS, Bootstrap, SCSS, JQuery, Basic Angular

4. AJR Infosystems Pvt Ltd. [04-Dec-2018 To 15-Feb-2021]

Roles and Responsibilities

Worked as a Junior UI Developer on projects like Scocu (a mobile and web application builder) and Banter (a chat and call service). Gained hands-on experience in building responsive and interactive user interfaces.

Technologies: HTML, CSS, Bootstrap, SCSS, JQuery, Basic Angular

EDUCATIONAL QUALIFICATIONS

Long Term Coaching from SSSIT on HTML, CSS, SCSS, Bootstrap and JavaScript (March-2017 to October-2018).

Diploma in Electronics and Communication Engineering (2016) from TRR Engineering College with 67%.

Secondary School of Education (2011) from Sree Vani High School with 70%.

PERSONAL INFORMATION

Strengths: Hard Working, Action Oriented, Result Focused and Good Time Management Skills

Personal Info: S/O. Srinivas, DOB: 05-05-1995, Languages: Telugu, English and Hindi.

Place: - Hyderabad.

Nerella Ramesh.
